

# ReadyRosie

## Introducing: ReadyRosie Summer Soar

ReadyRosie will deliver specific learning activities and games to make summer learning soar in 2017!

*(See reverse side of this flyer for specific content and schedule.)*

- » 8 weeks of content designed to prevent summer learning loss and ensure more student confidence and capability for Fall 2017
- » Fun and inspiring activities that families will love to play throughout the summer months
- » All content and videos in English and Spanish
- » Go here to learn more: [ReadyRosie.com/summersoar](http://ReadyRosie.com/summersoar)

## TEACHERS...

1. Share this information with your families so they are inspired to learn together all summer!
2. Schedule at least two customized messages through ReadyRosie SHARE to touch base with families and encourage them to use this content over the summer!
3. Look forward to a new and improved user and data experience with ReadyRosie in Fall of 2017!

## WEEK #1: Start your family's summer learning adventure today!

Summer is here! How can you have a FUN summer AND learn together along the way? We've got some ideas and we're sure you have wonderful ideas of your own. Invite your child to draw or write a list of the things you would like to do together!

WATCH ALL NOW

### Building a Fort

Want to create a memorable summer for your child? Start by making reading together an adventure!

### Ten in a Row

We think this card game will become one of your summer favorites. Your child won't even realize how much math is being learned while racing you to Ten in a Row!

### Morning Message

Keep a simple record of your summer days AND help your child begin to read at the same time!

<b>WEEK #1:</b> <b>Start your family's summer learning adventure today!</b>	<b>WEEK #2:</b> <b>Playing well with others is a winning combination!</b>	<b>WEEK #3:</b> <b>Give your child the WORLD!</b>	<b>WEEK #4:</b> <b>Move, Play, Learn!</b>	<b>WEEK #5:</b> <b>What's great about your family?</b>	<b>WEEK #6:</b> <b>Take learning with you wherever you go!</b>	<b>WEEK #7:</b> <b>Summer Outdoor Fun!</b>	<b>WEEK #8:</b> <b>Stay COOL this summer and be ready for school in the fall!</b>
<p>Summer is here! How can you have a FUN summer AND learn together along the way? We've got some ideas, and we're sure you have wonderful ideas of your own. Invite your child to draw or write a list of the things you would like to do together!</p>	<p>Whether your child has a sibling, cousin, neighbor, or friend, there will always be a chance to practice working together to solve a problem. This week, we've got several examples of ways to turn everyday problems into opportunities for learning empathy and collaboration. See how your family can create a win-win for everyone!</p>	<p>You CAN show your child the world by sitting down and opening a book together. Reading and talking about books is a wonderful way to connect with your child and share new places and experiences. Your local librarian would love to help you find books that will interest your child, and we've got ideas that will make reading one of your favorite family activities!</p>	<p>Physical activities such as running, throwing, jumping, and climbing help your child develop gross (large) motor skills in the arms, leg, and trunk muscles. When children have plenty of time to playfully MOVE, they are better able to listen, concentrate, and release stress. This week's activities are so fun that you will find it hard not to move too!</p>	<p>No family is perfect, but there is not another just like yours. This week, we are celebrating your FAMILY! Take a moment to try out one of the activities. We know you will be happy you did!</p>	<p>Time in the car, bus, train, or plane can be special but it can also be stressful! No worries! We've got simple ideas that don't require any materials for you to take advantage of those moments together.</p>	<p>Could your family use some sunshine and some screen-free fun? Time outside together is one of the easiest, most natural ways to create lifelong memories. Try one of these ideas today!</p>	<p>Is the summer heat getting to you? Whether you're heading to the pool or staying inside with a glass of ice water, we've just the thing to cool you off while you learn together.</p>
<p><b>BUILDING A FORT</b> - Want to create a memorable summer for your child? Start by making reading together an adventure!</p>	<p><b>MAKING PLAYDOUGH TOGETHER</b> - Too many cooks in the kitchen? Not today! Work together to follow the recipe and then share the reward of the finished playdough.</p>	<p><b>MAKING CONNECTIONS</b> - Books become our friends when we make connections to them. Talk with your child about the things in the book that relate to your family and your experiences.</p>	<p><b>FREEZE DANCE</b> - How can such a fun game help prepare your child for school? Learning to listen well and to start and stop motions quickly enables your child to regulate emotions as well as become a great problem solver!</p>	<p><b>I LOVE MY FAMILY BECAUSE</b> - This activity is guaranteed to end with a family group hug! Encourage younger children to participate in this activity by drawing pictures.</p>	<p><b>WHAT AM I COUNTING?</b> - Surprise your child with this counting game. It will make any trip go by much faster!</p>	<p><b>SENSORY WALK</b> - Take a walk and talk about what you see, hear, smell, and feel. Follow your child's lead and discover something new each day about the world around us!</p>	<p><b>WHO AM I?</b> - This guessing game can be played anywhere but is an especially fun way to build thinking and describing skills while waiting in line for the slide or while splashing together in the water!</p>
<p><b>TEN IN A ROW</b> - We think this card game will become one of your summer favorites. Your child won't even realize how much math is being learned while racing you to Ten in a Row!</p>	<p><b>SNACK FRACTIONS</b> - Sometimes our treats come in one big piece like a cracker, cookie, or brownie. Talk about strategies for dividing them in a way that works for everyone!</p>	<p><b>CHIME IN</b> - Even children that don't know all the ABCs can FEEL like readers when they playfully "chime in" to say the repeated phrases in the books you read.</p>	<p><b>FOLLOW THE LEADER</b> - Show your child that adults can have fun on the playground too! While you're on the move, model using language like under, over, around, and through.</p>	<p><b>FAVORITE PEOPLE PLACE CARDS</b> - Give your child a real and purposeful reason to write and draw by making place cards at the table for each member of your family.</p>	<p><b>ECHO GAME</b> - This game challenges your child to listen to sounds and blend them together to form a word. This important skill can be practiced anywhere and lays a foundation for reading and writing.</p>	<p><b>STRAWBERRIES FOR A PICNIC</b> - Before you head outside, pack a snack and think together about the best container for your food. This is a practical way to show how you use estimation in real life!</p>	<p><b>SINK OR FLOAT</b> - Try this in your sink or bathtub. Test out different household items to see if you discover something about which items sink and which items float!</p>
<p><b>MORNING MESSAGE</b> - Keep a simple record of your summer days AND help your child begin to read at the same time!</p>	<p><b>SHARING GOLDFISH</b> - Do your children have a strategy for sharing a bag of snacks? Talk about the possibilities and learn a little math in the meantime!</p>	<p><b>BOOK BAG DESCRIPTIONS</b> - Books make great memories! Before you return your books to the library, play this game to remember favorite characters and interesting information.</p>	<p><b>ROCK TOSS</b> - Yes, we are telling you to throw rocks! But, we're also asking you to aim! Try this outside game to build some gross motor skills and practice adding at the same time.</p>	<p><b>MY ADDRESS</b> - Try this song to help your child learn your family's address.</p>	<p><b>HOW MANY CAN YOU NAME?</b> - Stretch your brains and see who in your family can name the most things that belong in a category like fruits, colors, or transportation.</p>	<p><b>WAYS TO CUT A SANDWICH</b> - Sandwiches make great outdoor meals, and their square shape provides a perfect way to think about the triangles or rectangles hiding in a square.</p>	<p><b>ADDING ICE</b> - This is sure to cool you off! Estimate how many cubes of ice will be necessary to fill up a glass of water. Test it out to see!</p>
<p><b>GRASP AND GRAB</b> - Don't leave those little ones out of the summer adventures! Invite them to watch older siblings and friends and encourage them to try new skills.</p>	<p><b>SING TOGETHER</b> - Developing positive relationships with other children can begin at a very early age. Prepare your baby for future sharing and collaborating with lots of moments for bonding and interacting today!</p>	<p><b>BOOK CHAT</b> - Watch this simple way to grow your toddler's language and have fun with any book!</p>	<p><b>BEAR HUNT</b> - The playground is the perfect place to pretend, move, and play with your toddler while building language at the same time.</p>	<p><b>TWO ON ME AND YOU</b> - Even though there are many differences, you all have things in common. Build language by talking about what you and your baby have in common!</p>	<p><b>ITSY BITSY SPIDER MOTIONS</b> - Is your baby tired of traveling? Sing some of your favorite songs. Even if you can't do the motions, your baby will be comforted by your voice and learn new sounds and words.</p>	<p><b>NATURE WALK AND TALK</b> - Encourage your child to keep a simple nature collection. Talk about the colors, shapes, and textures of the items you find.</p>	<p><b>TOY CAR WASH</b> - Strengthen your little one's hand and finger muscles by providing a water bottle and a washcloth or sponge to wash toy cars. You can try it with any plastic toy! Show how to scrub, wring, squeeze, and squirt while enjoying the cool water play!</p>
